AMG KIDFIX XP, WITH ISOFIX

Link to Accessories-Configurator

Black/red. Support and safety for older children too: The high-quality AMG KIDFIX XP child seat is suitable for children between the ages of around 3.5 and 12 years (15 to 36 kg) and is securely attached by means of the 3-point seat belt or, in addition, the ISOFIX system. If required, the backrest can be removed so that the AMG KIDFIX XP can be used as a booster seat. Uses high-quality standard material microfibre DINAMICA, which is also used in the AMG interior. Made in Germany.

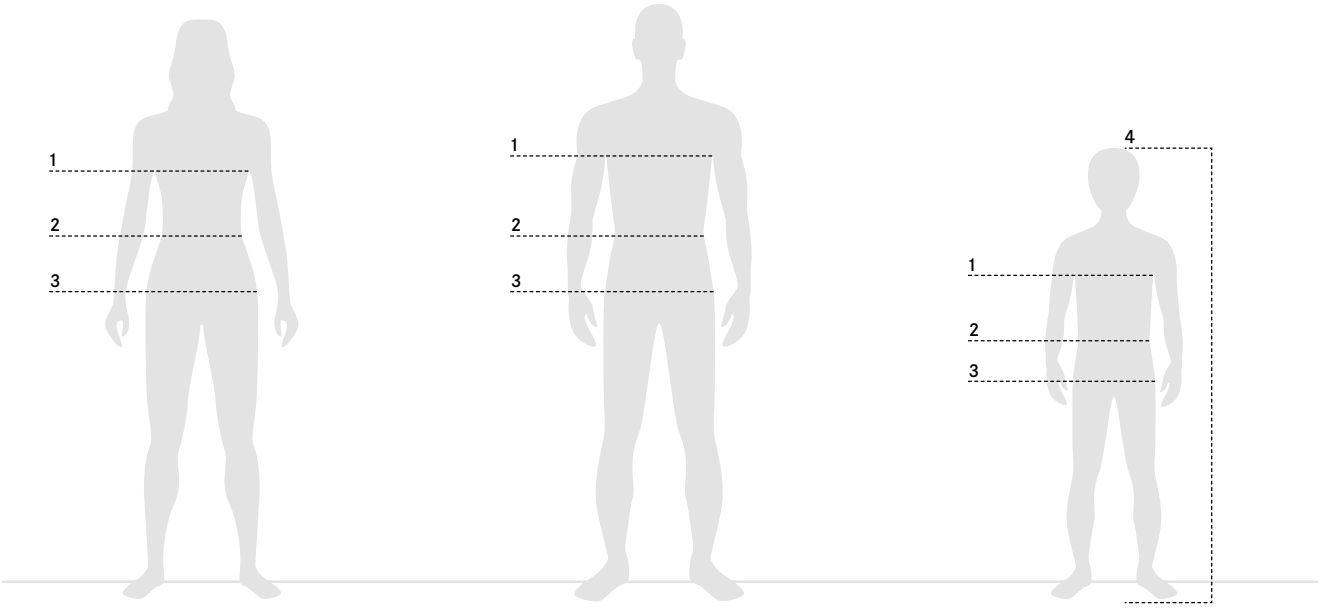
Filter categories for sunglasses

Four filter categories are used for sunglasses, based on the degree of tint.
Please use the table below to decide which category best suits your needs.

Category	Tint	Anti-glare protection for lighting conditions
1	20–57%	Light protection for overcast days
2	57–80%	Normal protection for summer days in Central Europe
3	80–92%	High dazzle protection for expanses of water, beaches and mountains, plus Southern European countries; from 90% tint not suitable for driving!
4	92–97%	Maximum protection for high mountains and glaciers; not suitable for driving!



Clothing sizes

The tables below are designed to help you find your perfect size. It is important to take your measurements correctly. For best results, you should be relaxed and wearing only your underwear. Ideally you should use a tape measure which you should keep close to the body. If you have someone to help you, it will be easier and more precise.

1. **Chest:** keeping the tape measure horizontal, measure around the fullest part of the chest
2. **Waist:** measure around the waist without drawing the tape measure too tight
3. **Hips:** keeping the tape measure horizontal, measure around the fullest part of the hips
4. **Height (for children's clothing):** measure from the top of the head to the sole of the feet without shoes

Please note: Separate tables are provided for the PUMA brand and the official MERCEDES AMG PETRONAS motorsports clothing.
